GOOD

Global Open OnDemand Conference

THE UNIVERSITY OF UTAH | MARCH 9-12, 2026

GOOD26 is brought to you by

NUMFOCUS

OPEN CODE = BETTER SCIENCE

About GOOD

GOOD26 (Global Open OnDemand Conference) is the second annual gathering of users, developers, and stakeholders in the Open OnDemand community. This 4-day in-person event, taking place from March 9-12, 2026, will provide a unique platform for attendees to engage with experts, share insights, and explore advancements in Open OnDemand—a groundbreaking tool that offers web-based access to supercomputing resources. With a focus on collaboration and innovation, GOOD will feature keynote talks, lightning sessions, and networking opportunities designed to empower participants to drive the future of remote supercomputing access.

The GOOD26 program will feature live talks, tutorials, keynote sessions, and vibrant community events. The conference brings together experts from industry, academia, and government to share their latest advancements, learn from seasoned users and developers, and collaborate on cutting-edge projects.

The program kicks off with the Contributor Jam, a hands-on, immersive opportunity with OOD developers followed by three days of talks, tutorials, posters, and more.

Why Support GOOD

Brand Visibility and Exposure:
GOOD26 is a global event attracting professionals, developers, and researchers from across the open-source and high-performance computing (HPC) communities. Exhibitors get prominent brand placement through various channels such as the website, event signage, and materials, giving them visibility among an engaged audience.

Targeted Audience:
Open OnDemand is a specialized open-source platform used primarily in research, education, and industry sectors that leverage HPC resources. Supporting GOOD26 allows companies to connect with decision-makers, developers, and users within these sectors who may benefit from or contribute to their products and services.

Community Engagement and Networking:
Exhibitors have the opportunity to interact with key stakeholders in the HPC and open-source ecosystems, including thought leaders, potential partners, and customers. Being present at GOOD26 offers valuable networking opportunities to establish relationships and explore collaborations.

Recruitment Opportunities:
The conference attracts a highly skilled, technical audience. Supportinging provides companies with a platform to showcase their expertise and projects, positioning them as attractive employers for talented developers, engineers, and researchers interested in open-source and HPC technologies.

Thought Leadership:
Exhibitors often have opportunities to speak, host workshops, or participate in panels, allowing them to demonstrate thought leadership in their respective fields. This can elevate their reputation as innovators and contributors to the open-source community.

Supporting Open Source:
Companies that support GOOD26 show their commitment to the open-source ecosystem, which can resonate with the community. Supporting an event like GOOD26 helps strengthen the Open OnDemand project and the broader HPC community, fostering goodwill and positive brand association.

GOOD26 is a valuable platform for companies looking to align with open-source initiatives, enhance brand recognition, and engage with a highly specialized and influential audience.

Exhibitor Options

	DIAMOND	PLATINUM	GOLD	SILVER
	Talk to us	**$10,000**	**$6,000**	**$4,000**
Top-Tier Branding and Visibility	✓

Conference Passes	8	5	3	2
Booth Passes	3	3	3	0

Please email info@good.openondemand.org for all exhibitor inquiries.

Additional information

- Returning exhibitors receive special recognition
- Booth location selections are first-come first-serve (secure yours now)
- Deadline to be included on first big sponsor announcement to community is January 5, 2026

Attendee Social Event Host ($15,000)

Be the exclusive host of the official attendee social event, with prominent branding opportunities throughout the evening. This package includes a booth, access to the attendee list, your logo featured on the website, exhibitor banner, and conference t-shirts, plus five full conference passes.

Afternoon Break Host ($5,000)

Support an attendee networking break, held each afternoon with refreshments and snacks. As the official break exhibitor, your brand will be highlighted throughout these sessions with strategic logo placements, offering a relaxed yet visible opportunity for brand engagement.

Video Exhibitor ($10,000)

Support the recording and production of conference talks and tutorials, making them accessible online for a lasting community impact. Your brand will be prominently displayed as the video exhibitor on the title card, giving you enduring visibility with thousands of future viewers.

Co-exhibitors

If exhibitors are co-exhibiting and want to include multiple company names/logos in acknowledgements prior to and during the conference, there is an additional add-on fee required per co-exhibit of **$1,500** per co-exhibit.

Learn more

OPEN OnDemand

LEARN MORE

Open OnDemand is a web-based platform that provides easy remote access to supercomputing resources, enabling users to run advanced computing tasks from any device with a browser. Developed by the Ohio Supercomputer Center (OSC), it eliminates the need for client software installation, allowing students, researchers, and industry professionals to compute from anywhere. Open OnDemand is designed to simplify supercomputer access with a user-friendly interface, offering powerful virtual computing labs across various disciplines.
